

Honorable
Mention

Project Title: **Cuttero**
 Students Name: **Malia Davies, Joey Le, and Joanna Wells**
 Level: **Junior**
 Course: **Des 340, Design Systems**
 Advisor/Instructor: **Kate Catterall**
 Principal Investigator: **Kate Catterall**
 Department / School: **Design Division, Department of Art and Art History**
University of Texas at Austin,
Austin, Texas

Summary description of project:

Cutterro functions as a chopping board/kitchen prep tool. Bowls surrounding the board are designed to receive ingredients immediately and are easily removed to store in a refrigerator. The chopping knives are stored in the body of the board, making this a compact multifunctional design.

Reasons for the nomination:

Innovative product developed, effective collaboration team, strong presentation of ideas.

Jury Comments

I have selected this project for an award for its special use of textures. It is inspiring to see different and sensitive ways on how to use **form•Z**.
